

Save the Planet. Save Money. Get Certified

Tips to stay green during Halloween:

1. Make DIY or buy used costumes instead of buying new from a store
2. Use household or second-hand items to decorate your home
3. Avoid throw-away party plates & utensils
4. Give the kids an older pillow sack or a reusable grocery bag to collect candy
5. Make treats in bulk rather than relying on individually-wrapped candies for celebrating

Get your pumpkin spice on, locally!

The leaves are fading into shades of red, yellow and orange while the air is growing crisper each day. Fall has arrived and Halloween will be here before we know it! The tips to the left are more obvious steps to be sustainable, but buying locally is another great way to reduce your carbon footprint. So here are a few local farms to spend a day with your friends and family! Buy your locally-grown pumpkins, apples, cider + doughnuts, and/or decorative gourds at one or more of the following locations:

[Heartland Farms](#)
