Dubuque Farmer's Market

Did you know that Dubuque is home to Iowa's oldest active farmer's market?

The summer Dubuque Farmers' Market has been located in the Upper Main district since 1845. Each Saturday morning, May 1 through October 31, local vendors gather to sell homegrown or handmade items. Located in downtown Dubuque, Iowa, in the area around City Hall (Iowa, 12th, and 13th streets). We hope to see you Saturday at the Farmer's Market!

April showers bring May....

snow showers?

In the last newsletter we declared that spring had arrived. Boy were we wrong! Winter lingered a little too long this year but that just helps us appreciate the warm weather now by biking to work.

Bike to Work Week in Dubuque started 4 years ago with the goal of providing a week where people driving cars were more aware of those using non-car based transportation. Bike to Work Week isn't just for bikers. This year, you can register your walk, bike, public transit or carpool commute to work, school, a coffee shop, grocery store or anywhere you go during the week.

Smarter Discards

The City of Dubuque is looking for volunteers for the new Smarter Discard program. As a volunteer in this free pilot study, you will:

- Authorize your weekly setout data to be collected by the City in anonymized form
- Have access to an online portal for tracking your goals and performance changes
- Receive an organics recycling tool kit (optional)

The information collected through this pilot study will be used in decision-making related to policies, staffing, and equipment issues related to Dubuque's waste management and curbside collection.

To volunteer, or for more detailed information, visit www.cityofdubuque.org/smarterdiscards, e-mail ssd@cityofdubuque.org, or call 563-690-6111.

Food Scrap Recycling Expansion Announced

The Dubuque City Council approved a contract at their April 15 meeting that allows for the expansion of Dubuque's curbside collection of food scraps for composting program.

City collection customers may either subscribe to dedicated food scrap collection carts (13, 48, or 64 gallons) for an additional fee or place food scraps and compostable paper in with grass clippings, leaves, and other yard debris in their current yard waste cans, carts, and bags.

As a result, many City customers will be able to divert their food scraps for composting at little or no additional cost by adding these materials to their under-filled and/or underweight yard debris containers. Businesses interested in composting should contact their current hauler to setup the service. If they are not able to haul food scraps, contact other private haulers.

For more information and tips on food scrap recycling, visit www.cityofdubuque.org/foodscraps or call the Public Works Department at 563-589-4250.

Dubuque Jaycee's Community Garden

The Dubuque Jaycee's Community garden was started to connect would be gardeners with a place to grow produce. The gardens can be leased by anyone, but are targeted to people who live in apartments, have strict covenants or just want to be near fellow gardeners. This is not only a means of sustainable local food production, but a way to grow community, togetherness, and family bonds. On site water and shed storage are included. Tenants get the same garden plot back year after year, encouraging them to take pride in it and make it their own.

The Dubuque Jaycee's are looking for businesses to purchase naming rights for each garden plot. For \$200 a year your business will get to name a garden. The garden name will be included on signage and all formal communications regarding that plot.

Connect with the Petal Project

The Petal Project is on Facebook and Twitter. We have been posting pictures, tweeting from conferences, sending business updates, posting relevant articles, and much more. Connect with us on one or all of these social media sites to keep up-to-date with the Petal Project.
